## HIPAA NOTICE ACKNOWLEDGEMENT

The Practice of Denver Cyberknife (DBA Anova Cancer Care) is required by applicable federal and state laws to maintain the privacy of your health information. Protected health information (PHI) is the information we create and maintain in providing our services to you. Such information may include documentation of your symptoms, examinations and test results, diagnoses and treatment protocols. It also may include billing documents for those services. We are permitted by federal privacy law, the Health Insurance Portability & Accountability Act of 1996 (HIPAA), to use and disclose your PHI for the purposes of treatment, payment and health care operations without your written authorization.

We will use your PHI during the course of your treatment if the physician determines we will need to consult with a specialist in another area. He will share the information with the specialist and obtain his/her input. We will also use your PHI to contact you by phone, if we need to speak to you about a medical condition, or to remind you of medical appointments. We may use or disclose your PHI to provide you with information about treatment alternatives or other health-related benefits and services that may be of interest to you.

**\*\*\* Email Communications:** Information stored on our computers is encrypted; however, most popular email services (e.g., Gmail, Hotmail, Yahoo, etc.) do not utilize encrypted email. As a result, when we send you an email, or you send us an email, the information that is sent is not encrypted. This means a third party may be able to access the information. In addition, once the email is received by you, someone may be able to access your email account and read it. Email is a very popular and convenient way to communicate, so in a modification to the HIPAA act, the federal government provided guidance on email and HIPAA (this information is available at the U.S. Department of Health and Human Services website). We will only communicate via email using our secure email system.

As our patient we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We also want you to know that we support your full access to your personal medical records. You may refuse to consent to the use or disclosure of your personal health information, but this must be in writing. You may revoke authorizations that you made previously to use or disclose information by delivering a written revocation to our office (except to the extent action has already been taken based on a previous authorization).

You have the right to receive the Notice of Privacy Practices for Protected Health Information from our office or visit our website at [www.anovacancercare.com](http://www.anovacancercare.com). I acknowledge that I have been given the option to receive a copy of the Notice of Privacy Practices for the practice of Denver Cyberknife (DBA Anova Cancer Care).

Additionally, the responsible party will be billed for services rendered in full, should the insurance company deny coverage due to non-covered benefits, lack of referral, lack of proper reporting of incident/accident or lack of individual coverage, where applicable. **\*Please Note: Professional services provided by the physicians of Denver Cyberknife (DBA Anova Cancer Care) are billed through Urology Associates, P.C.**
